第三步：解压压缩包，得到二维码，通过扫描二维码得到base64字符串；并将base64转为字符串即可得到flag{97gu99px-9g1g0-up6c70f13qze6w9oe}。具体如下图：

1 > 题目3

a.png

A screenshot of a web-based Base64 decoder. The top input field contains the Base64 string: ZmxhZ3s5N2d1OTlweC05ZzFnMC11cDZjNzBmMTNxemU2dzlvZX0KIA==. A red arrow points from this string to the output field. The output field is labeled "输出(转换值):" and contains the decoded string: flag{97gu99px-9g1g0-up6c70f13qze6w9oe}. The background of the tool is light green. At the bottom right, there is a URL: <https://blog.csdn.net/GreatYuTong>.
