<https://buuoj.cn/challenges#%E5%9F%BA%E7%A1%80%E7%A0%B4%E8%A7%A3>

The screenshot shows a challenge interface. At the top, it says "Challenge" and "2234 Solves". Below that is the title "基础破解" (Basic Break). Under the title is the number "1". The challenge text reads: "给你一个压缩包, 你并不能获得什么, 因为他是四位数字加密的哈哈哈哈哈哈。。。不对= =我说了什么了不得的东西。。注意: 得到的flag请包上flag{}提交". Below the text is a download button labeled "5e46643e-b...". To the right is a "Flag" input field and a "Submit" button. At the bottom of the page is the URL "https://blog.csdn.net/mochu777777".

The screenshot shows the WinRAR interface. The main window displays a file named "基础破解.rar" (RAR 4.x compression, size 52 bytes). A sub-dialog titled "输入密码" (Enter Password) is open, prompting for a password to decrypt the file "flag.txt" within the archive. The password field is empty. There are checkboxes for "显示密码" (Show Password) and "用于所有压缩文件" (Use for all compressed files). In the background, a progress bar indicates the file is being decrypted at 0%.

根据提示使用 ARCHPR 进行 4位数字的掩码爆破

<https://blog.csdn.net/mochu7777777>

得到压缩包口令: 2563

解压得到

```
>>> import base64  
>>> base64.b64decode('ZmxhZ3s3MDM1NDMwMGE1MTAwYmE3ODA2ODgwNTY2MWI5M2E1Y30=')  
b'flag{70354300a5100ba78068805661b93a5c}'  
>>>
```

```
flag{70354300a5100ba78068805661b93a5c}
```
