Please login once per month if at a minimum to avoid inactive learner deletion.

Learners may be classed as inactive by the system if you do not log into 000webhost.com ⁵⁴ regularly. It is advisable if you are continuing to learn on the free platform that you login to 000webhost.com ⁵⁴ control panel a minimum of once per month to avoid inactive user deletions.

Learners who are inactive may be archived or deleted without any notice.

We advise all learners to keep regular backups of their website as 000webhost free hosting does not keep any backups of any files at all.

You must login to 000webhost.com ⁵⁴ control panel regularly - using FTP or managing your website via WordPress dashboard or similar admin panel will not register as active user - you must login to 000webhost.com ⁵⁴ control panel regularly to avoid the inactive user deletions.

Please be aware that not all learners may receive an email due to a number of reasons so we advise you to login regularly to 000webhost.com ⁵⁴ - a minimum of once per month and keep very regular backups of your files - this is completely free hosting after all - you'd be crazy not to keep backups!

As per the terms and conditions agreed on signup to 000webhost, the user (you) is ultimately responsible for ensuring regular data backups and keeping your data safe, website files, database and anything that you would lose if your 000webhost account was deleted on purpose or by means of a system failure.

While we strive to inform learners via email - if it goes to spam or is blacklisted by your email provider there is nothing we can do to combat this - we've invested heavily in third party mailing services to get through the highest deliverability we can. If you don't get an email we can only apologise, ensure to take regular backups.

We will update this accordingly with any changes in the future, thanks to those free plan learners who suggested this idea to free up space on the free platform 😊
