解题思路

It's like an instinct, whenever I see a challenge title related to Mr.Robot series, I check the /robots.txt page. xD Generally **robots.txt file** is a text **file** that tells web **robots** (most often search engines) which pages on your site to crawl. So on visiting the /robots.txt, <http://chall.csivit.com:30231/robots.txt> we see a path which is disallowed to the web robots.

```
1 # Hey there, you're not a robot, yet I see you sniffing through this file.
2 # SEO you later!
3 # Now get off my lawn.
4 Disallow: /fade/to/black
```

We append this disallowed path /fade/to/black to the challenge url, <http://chall.csivit.com:30231/fade/to/black> and we get the flag.

Flag

```
1 csictf{br0b0t_1s_pr3tty_c00l_1_th1nk}
```
